#### Abstract

ISACA China HK Chapter & Hong Kong Computer Society jointly organise a seminar on how to cope with the changes in cyber security landscape.

The seminar will start with an introduction of the latest security landscape such as the recent attacker behavior to get a feel of the what attackers are doing. Then examine how Cloud delivered security can help to stop the latest threat using at scale threat intelligence to get ready of the ever changing threat landscape.

## Biography

Garrick Ng is the Chief Technology Officer for Cisco Hong Kong, Macau and Taiwan, leading Cisco's Enterprise, Commercial and Service Providers systems engineering strategy and operations in these markets. Garrick joined Cisco in 2007, and was promoted to his current role with expanded territories in 2016. With more than two decades of experience in the ICT industry, he has been driving innovations in the local market with deep knowledge in technology, and has attained significant achievements in developing turnkey cross-architecture solutions to best align with customers' business needs and goals. He has been recognized by the company as Manager of Excellence three years in a row since 2014.

Garrick is the Cisco Security Ambassador and has been vocal to promote cybersecurity awareness and actions to the publics. He received the qualification of Certified Information Systems Security Professional (CISSP) from the world-renowned International Information System Security Certification Consortium (ISC)<sup>2</sup> in 2017. He was awarded Gold (Communication/Management category) in the Cyber Security Professional Awards, organized by the Hong Kong Police Force, Hong Kong Computer Emergency Response Team Coordination Centre (HKCERT) and Government Computer Emergency Response Team Hong Kong (GovCERT.HK), in 2016.

In addition, Garrick has made notable contributions to the industry with his capacities as Operation Director, Hong Kong Computer Society Foundation; Vice Chairperson, IoT & Mobility Special Interest Group, and Committee Member of the Information Security Special Interest Group, both under Hong Kong Computer Society (HKCS); Chairman of the Smart City Consortium Security Special Interest Group, and Committee Member of the Cyber Security Alliance under Hong Kong Information Technology Federation (HKITF).

Prior to joining Cisco, Garrick co-founded WiseSpot and was the CTO to lead innovation in the company. He invented the world's first music ringback tone (彩玲) for GSM Mobile Network, Asia's first real-time financial streamer on cellular PDA "Wireless Teletext Machine", and the world's first wireless PDA to stream real-time horse-racing data. All innovations were very well received in the market.

Garrick holds a Bachelor of Science in Computer Science from New York University, a Bachelor of Engineering in Electrical Engineering from The Cooper Union, and a Master of Science in Electrical Engineering from Columbia University in the United States. In his leisure time, he teaches Martial Art and Kung Fu; he is also a certified hypnotherapist, and a Neuro-Linguistic Programming practitioner.

---
