Abstract

Blockchain is the hot new technology that everyone is talking about. What is the blockchain? Will it benefit your business? What are the risks that you need to consider when your company is looking into a blockchain-related project?

Biography

Vijay Luiz is a cybersecurity consultant with PwC's Risk Assurance practice. He has performed various cybersecurity and IT roles and now also looks at blockchain security. Vijay has advised international and regional financial services providers, government clients and SMEs. He has provided consulting services, hands-on deployment, support as well as training. Vijay volunteers his time for evangelising information security as well as knowledge sharing. He has spoken on information security topics at events around Asia.
